NISHANT PARWANI

Computer Engineering & MBA Candidate | Entrepreneur

Portfolio: nishantparwani.com **LinkedIn:** https://www.linkedin.com/in/nishant-parwani +91-7862045943

PROFESSIONAL SUMMARY

Driven dual-degree student (BTech Computer Engineering + MBA) at NMIMS Mumbai with a strong foundation in software development, data analytics, and entrepreneurial strategy. Demonstrated ability to lead cross-functional teams, build end-to-end technical solutions, and drive measurable outcomes across academic, community, and startup environments. Founder of a B2B service venture, published economics researcher, and hackathon award winner — actively seeking opportunities to apply technical expertise and business acumen to create real-world impact.

EDUCATION

MPSTME, Narsee Monjee Institute of Management Studies (NMIMS), Mumbai 2024 – 2029

Dual Degree: MBA + BTech, Computer Engineering | CGPA: 8.43 / 10 (First Year)

- Elected Class Representative and Contingent Leader, Student Council — managing inter-college delegation logistics and peer coordination for 100+ students
- Actively pursuing undergraduate research in technology and economics, with one published preprint paper

Udgam School for Children, Ahmedabad (CBSE) Graduated 2024

Class XII: 78% (PCM) | Class X: 87% | SAT Score: 1340

EXPERIENCE & LEADERSHIP

Tesseract Solutions — Co-Founder & Technical Lead Jan 2026 – Present

B2B Service-Based Startup | Mumbai, India

- Architected and launched a B2B service startup from ideation to client acquisition, applying full-stack development and business strategy skills to deliver measurable client outcomes
- Leveraged entrepreneurship coursework to drive product-market fit analysis, competitive positioning, and go-to-market execution
- Applied Python, JavaScript, and web technologies to build client-facing digital solutions, reducing manual workflows by an estimated 40%

4C – The Marketing Cell, NMIMS — Public Relations Core Dec 2024 – Present

College Marketing Chapter | Previously: Volunteer Executive (Dec – Jan 2024)

- Spearheaded outreach campaigns and stakeholder communications that generated 2,000+ event registrations for the annual college fest, demonstrating strong PR strategy and audience engagement skills
- Progressed rapidly from Volunteer Executive to Core PR role within one month, reflecting strong initiative, performance, and leadership potential

Taqneeq TechFest (TQ 18.0) — Outreach Core Oct 2024 – Present

NMIMS Annual Tech Festival | Previously: Logistics Executive

- Coordinated real-time logistics and departmental operations during the fest, ensuring seamless event execution across multiple concurrent tracks
- Promoted to Outreach Core for TQ 18.0, driving external partnerships, sponsorship outreach, and participant acquisition

Sattva – Cultural Fest, NMIMS — Outreach Executive Oct 2024 – Mar 2024

- Organized and hosted the Contingent Leaders' Meet for MPSTME, coordinating cross-college participation and ensuring clear communication across delegations

Sant Hirdaram Sewa Trust, Ahmedabad — Technical Volunteer May 2025 – June 2025

- Deployed technical solutions to improve the trust's media visibility and digital outreach, extending their reach to a broader beneficiary audience
- Managed beneficiary registrations and data systems for 100+ individuals, improving operational efficiency and record accuracy

PROJECTS & TECHNICAL WORK

IoT & Embedded Systems (Arduino / ESP32)

- Built a SONAR-based radar system using Arduino, applying real-time signal processing principles to map proximity data visually
- Developed a gesture-controlled robot with an Android APK interface, integrating hardware-software communication for autonomous navigation
- Engineered a live heartbeat abnormality detection system using ESP32 with real-time alerts, demonstrating applied IoT and health-tech innovation
- Implemented a live blockchain-inspired voting machine using SHA-256 hashing and Firebase, ensuring tamper-proof data integrity

Data Science & Machine Learning (Python)

- Built a Land Price Predictor model using regression algorithms (Random Forest, XGBoost, Linear Regression), achieving competitive predictive accuracy on real-world datasets
- Developed a real-time Stock & Finance Predictor via API integration, applying financial data pipelines and ML forecasting techniques
- Conducted a data-driven survey on Mumbai's suburban transport network using Python (pandas, NumPy), deriving actionable policy insights
- Implemented multiple ML algorithms including Logistic Regression, XGBoost, and TensorFlow-based models for classification and prediction tasks

Web & Full-Stack Development

- Designed and deployed a personal portfolio website (nishantparwani.com) using HTML/CSS with responsive design principles
- Built an interactive CRUD database management system in Python with SQLite3, supporting full data lifecycle operations

TECHNICAL SKILLS & APPLIED COMPETENCIES

Languages	Python · Java · C++ · HTML · CSS · JavaScript (basics) · R (basics) · MySQL
Libraries & Tools	NumPy · pandas · SQLite3 · RegEx · AngularJS (basics) · TensorFlow · AutoCAD
Platforms	MS Office Suite · Bloomberg Terminal · Firebase · ESP32/Arduino · GitHub
Domains	Machine Learning · IoT · Data Analytics · Full-Stack Dev · Financial Modeling
Business Skills	Entrepreneurship · Strategic Planning · PR & Outreach · Event Management · Research
Soft Skills	Leadership · Communication (Polyglot) · Adaptability · Problem-Solving · Initiative

ACHIEVEMENTS & RECOGNITION

- **Smart India Hackathon:** Ranked 2nd in Health & Technology category (Round 2) — developed a working prototype addressing real healthcare challenges in a nationally competitive environment
- **Published Research:** Authored and published a preprint paper in Economics (SSRN DOI: dx.doi.org/10.2139/ssrn.6289139), demonstrating independent research capability and academic initiative
- **Research Poster Presentation:** Secured 2nd place among 80 participants at an inter-college research poster symposium, communicating complex technical findings to a multidisciplinary audience
- **Model United Nations:** Awarded Verbal Commendation and Special Mention (twice) — recognized for analytical reasoning, diplomacy, and public speaking
- **Entrepreneurship Coursework:** Completed formal entrepreneurship training, acquiring skills in business model design, market validation, competitive analysis, and venture strategy — applied directly to founding Tesseract Solutions
- **Athletics:** Competitive-level tennis player, demonstrating discipline, resilience, and performance under pressure

PUBLICATIONS & RESEARCH

Economics Research Preprint (SSRN) | dx.doi.org/10.2139/ssrn.6289139 — Independent undergraduate research paper published on SSRN, the world's leading repository for scholarly research.
